PATENT FOR INVENTION IN FRANCE

"Composition containing in combination at least one  
gourd oil and at least one borage oil, use thereof as  
medicine , as dermatological or dermato-cosmetic agent"

Marc SCHWALLER

ABSTRACT

The present invention relates to a composition comprising, in combination: at least one marrow oil and at least one borage oil. The invention also relates to such a composition, for its use as a medicinal product, as a dermatological or dermocosmetic agent, or as a nutraceutical agent, especially for its use in preventing or treating alopecia, acne, hirsutism, seborrhoea or body odour.
